FREW & CAMPBELL Nos. 25 and 27 Pourteenth Street

PRIDAY MORNING, DECEMBER 17. THE Eric Railway Company pays em ployes according to the following schedule: Passenger conductors, \$90 a month; freight conductors, \$2.50 to \$3 per day; engineers, \$2.80 to \$3.20 per day; firemen, \$2.50; brakemen, \$1.50 te \$1.80; baggagemen on express trains, \$40 a month; on local irains, £40 to \$50; at stations, \$50. Station agents get from \$40 to \$60; in a very few cases more. Common trackmen are rarely paid over \$1 a day, except the foremen of the gangs, who receive from \$1.25 to \$1.58.

The Washington correspondent of the Richmond (Va.) Dispatch says that if the Republicans in the next Congress attempt to turn out Southern Democrats from the negro districts on the ground that they have been elected by bull-dozing, the Democrats will take the position on the very first case that the proceeding is revolutionary and will fillbuster to the end of the session, and unless the Democrats being now one will be an extraosesion, and the Democratic majority will be responsible for it.

It looks very much now as if we would get a Republican Senator from Tennessee, and thus have control of both legislative of the two branches, there being now one vacancy which will not be filled until the legislature meets. On joint-ballot there are forty-seven straight Republicans, and with the Greenbackers, who will most little will be an expression of the proceeding is revolutionary, and will fillbuster to the end of the session, and unless the Democratic majority will be consumed, and the result will be call of the important appropriation bills will be left untouched until near the end of the session, and unless the Democratate provision to pay the deputy marshals, another political discussion will ensue. Hence, I say there will be an expression and the Democratic majority will be consumed, and the result will be call of the important appropriation bills will be left untouched until near the end of the session, and unless the Democratate a provision to pay the deputy marshals, another political discussion will ensue. Hence, I say there will be near expression and the Democratic majority will be consumed, and the result will be call of the important ap conductors, \$2 50 to \$3 per day; engineers

Democrats will take the position on the very first case that the proceeding is revolutionary, and will filibuster to the end of the session to prevent it. He claims that this is not merely a rumor, but is the judgment of leading Democratic members of the House.

Secretary Shemman says that the 6 percents, of which thirteen millions are due on the 1st of January, are coming to rapidly in at the Treasury rate (1021) that they will probably be nearly all redeemed before due. He thinks the surplus revenues will cover their total redemption, but a well informed officer of the Treasury rate (1023) that well informed officer of the Treasury has any the surplus income will be about two millions short of the redemption. In the meantime, Mr. Sherman says he will not go into the market for any other bonds multi he cetarild of theso. into the market for any other bonds until he gets rid of theso.

They were sent to Philadelphia, but the officials returned them to New York again, where they will have to be supported until work can be obtained. Last week the Commission apent \$630 for bread alone to feed immigrants of this class.

The Irish harvest this year is described as the best known for more than a generation. The area planted with oats is very large, and the yield has tuened out to be at least 85 per cent in excess of that of last season; while the grain has obtained, if any thing, a better price in the market than it did last year, when the yield was so scauty. The preparations for illuminating Broad way, New York, from Fourteenth to Thirty-fourth street with electric lights are being rapidly pushed forward, and the indications now are that the new lights will be substituted for gas on or before Christmas Eve. The Brush Electrict Light Company Eve. The Brush Electrict Light Company is to do the lighting. The experiment is to cost the city nothing, and the system is to be done away with at any time if it proves unsatisfactory. The district selected for experimental illumination includes this company to the company of the company o thirteen hotels, five club-houses, and a large number of business houses. Property holders have made no objectious to the erection of electric lamps, and it is not thought that they will be displeased with the lights as substitutes for gas.

Mark Twein was saked to contribute to the paper issued at the fair in aid of abused children, in Boston, and responded as fol-

children, in Boston, and responded as follows:

Harrond, November, 30, 1880.

Dear Editors:—I do it with pleasure,

" but I also do it with pleasure,
cause I am not in sympathy with this movement. Why should I want a "Society for the Prevention of Cruelty to Children" to prosper when I have a baby down stairs that kept me awake several hours last night with no pretext for it but a desire to make trouble? This occure every night, and it embittors me, because I see now how needless it was to put in the other burglar alarm, a coelly and complicated contrivance, which cannot be depended upon, because it's always getting out of order and won't "go," whereas, although the baby is always getting out of order the more it gets out of order the more it does go.

Yes, I am bitter against your society, for I think the idea of it is all wrong; but if you will start a Society for the Prevention of Cruelty to Fathers, I will write you a whole book.

Yours with emotion,

Mark Twank.

One Experience from Many.

"I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what alled me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters, and I used them unknown to my family. I soon began to improve, and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said, "Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The mother.

OUR WASHINGTON CORRESPONDENCE. An Extra Session Probable—Tennessee Senatorable—The West Virgins Repub-lican Association, &c. &c.

WASHINGTON, D. C., Dec. 15. I predict there will be an extra session

of Congress. The Christmas holidays are virtually here, and not an appropriation bill perfected, much less passed. The disussion of the electoral count is but postponed until January, when the Democrats hope to have enough of their absent mem. bers present to press its passage. The Republicans will oppose the measure, using

A good many West Virginians have been in the city during the past week, among whom may be mentioned Mr. Ed. Wagner and Gec. Baird, Jr., of your city. The population returns will probably be furnished Congress by General Walker before the holidays, and the apportionment bill introduced shortly thereatter.
